## New product: ST-40 Tip Cleaner

On behalf of the management and staff of Taiyo Electric Ind. Co., Ltd, thank you for your continuing support of **goot** soldering equipment and accessories.

We are pleased to announce that the new goot ST-40 Tip Cleaner is now available. The cleaner itself is made from low-abrasive brass shavings. No water is required to use the tip cleaner, although it cleans the tip better than conventional sponges and reduces the temperature-loss that occurs when using a wetted sponge. The container is made of heat-resistant and slip-proof silicon rubber that is safe for both the soldering iron and the user.
