

# Victor<sup>®</sup> Electronics Manufacturer

## Specifications: VC2002

Model: VC2002 – FUNCTION GENERATOR

### **Model VC2002 - Function Generator**

- 8 digit LED display (including 3 digits for voltage)
- Frequency and amplitude displayed simultaneously
- Output waveforms: sinusoidal, rectangular, triangular
- Frequency of output signal: 0.2Hz - 2MHz
- Duty cycle adjustable: 20% - 80%
- Width of output signal adjustable continuously
- Amplitude without attenuation: 0.9V - 10V
- Amplitude with -20dB attenuation: 100mV - 1V
- Amplitude with -40dB attenuation: 10mV - 100mV
- Power: AC 110/220V  $\pm$  10%
